

A close-up photograph of the interior of a metal cabinet or safe. The walls are made of dark, weathered metal plates held together by rivets. In the center, a rectangular brass plate is mounted, featuring the number '14' engraved in a simple, hand-drawn style. The floor of the cabinet is a dark, textured material, possibly a heavy-duty mat or a different type of metal. The top edge of the cabinet is a lighter, orange-brown color, possibly a wooden or painted metal trim. The lighting is somewhat dim, highlighting the textures and metallic surfaces.
